R-100-1 "V2" Series Ring Illuminators

R-100-1 "V2" Series Ring Illuminators feature 36 LEDs (6 more LEDs than the models they replace) in a single ring configuration. Building on the design of our original Ring Illuminators, these models offer enhancements to mounting and accessory installation that make them class leaders in application versatility. Lens adapter options permit direct mounting to lens filter threads. A wide selection of model choices... diffused, non-diffused, or focused - red or white spectrums - 12 or 24 volt power - continuous or strobed... assures broad application coverage. For applications where more light intensity is required, the R-100-2 (two rings of 36 LEDs each for a total of 72 LEDs, p/n 010-6070xx) is available. R-100-1 V2 Ring Illuminators are ideal for applications that require cost-effective illumination of diffused surfaces.
